

IQ PARK

'Safe Desing, Unlimited fun'

About Us

At IQ Park, we provide creative play areas and play solutions that support children's physical and mental development. Based in the United Kingdom, our company aims to create safe and fun play environments that allow children to explore their creativity and enjoy their time. We continue to earn the trust of families and institutions by offering aesthetic and functional solutions tailored to diverse projects.

Vision

To become a globally preferred brand in play area solutions through innovative technologies and creative designs. To implement projects that create a lasting impact in our industry, where children enjoy their time, and parents have peace of mind.

Mission

To become a globally preferred brand in play area solutions through innovative technologies and creative designs. To implement projects that create a lasting impact in our industry, where children enjoy their time, and parents have peace of mind.

BALLS TO THE TARGET WITH **MORTAR!**

The Mortar is a fun and interactive game that lets children aim and shoot balls at targets. It helps develop focus, coordination, and precision, making play both exciting and skill-building!

Mortar

The Mortar provides children with the ability to make precise shots while allowing them to develop skills in directing **the ball towards** targets

Product Features

PVC material with a thickness of 1100 denier is used. A 650-gram protective coating

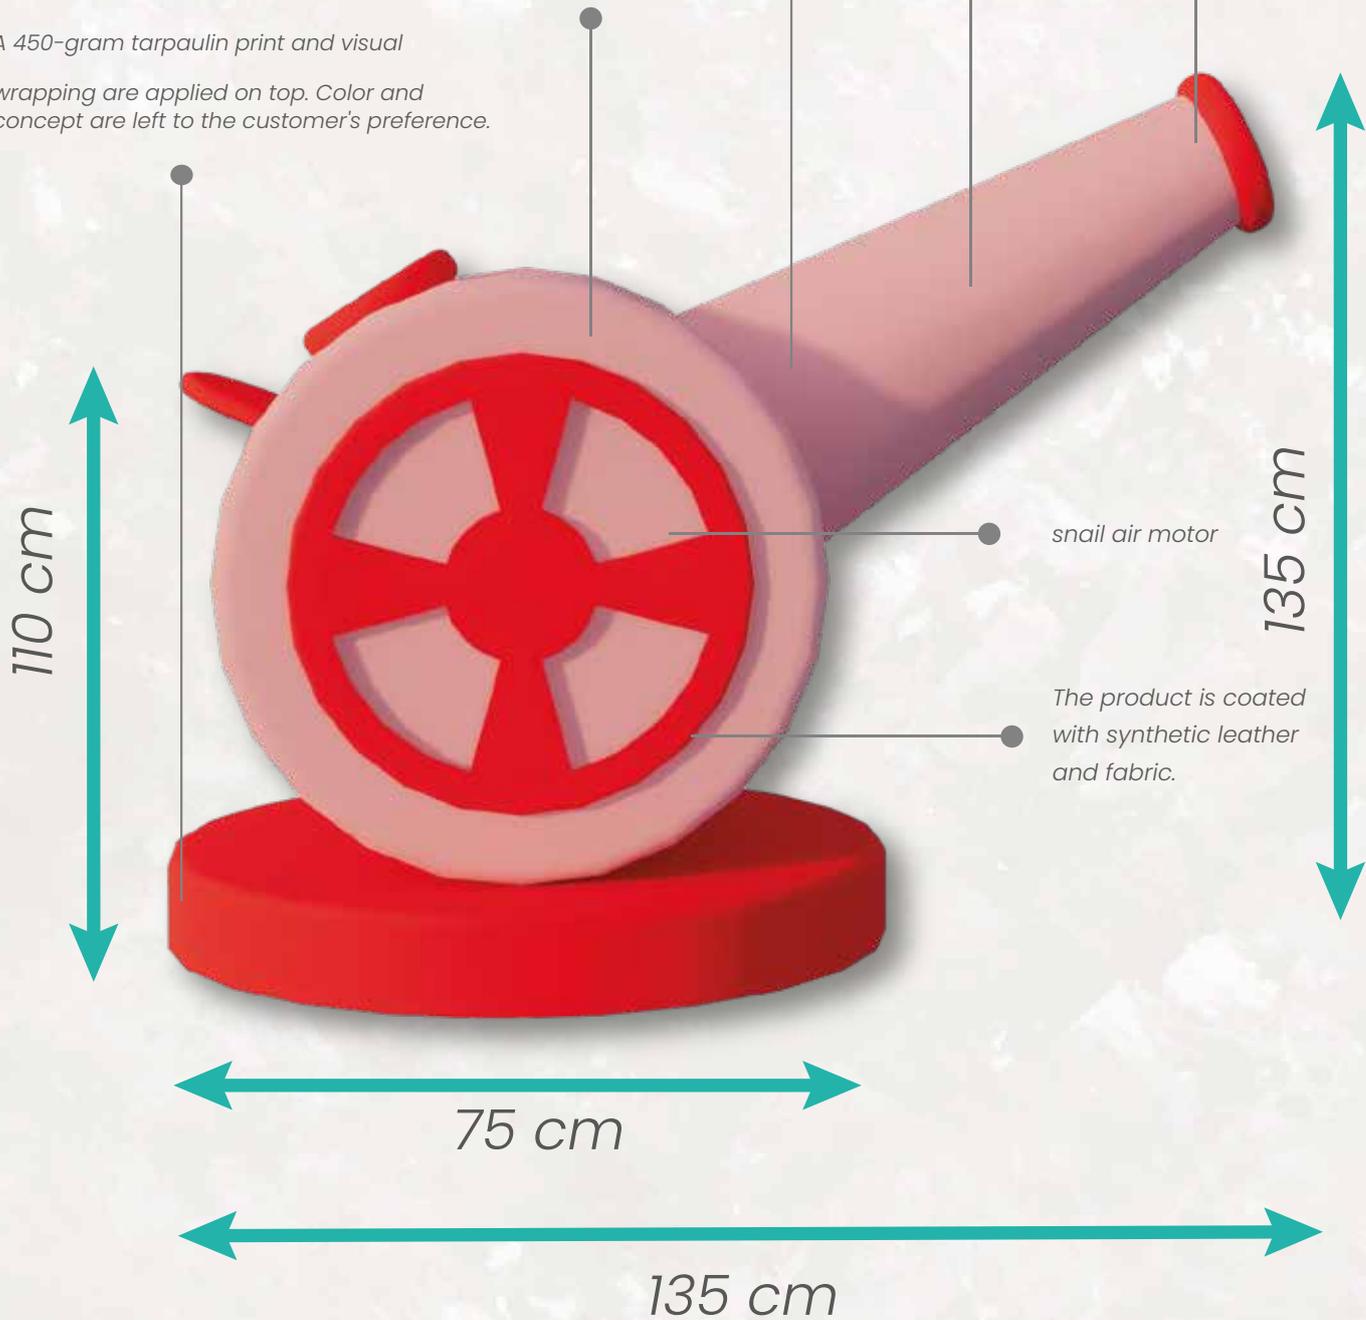

material is preferred for the coverings. Comfort is enhanced by covering with foam.

The product is designed in accordance with IP60 protection standards.

The product is designed with high-quality MDF material and carefully placed on an iron framework.

The product contains a snail motor. The electrical components have been grounded.

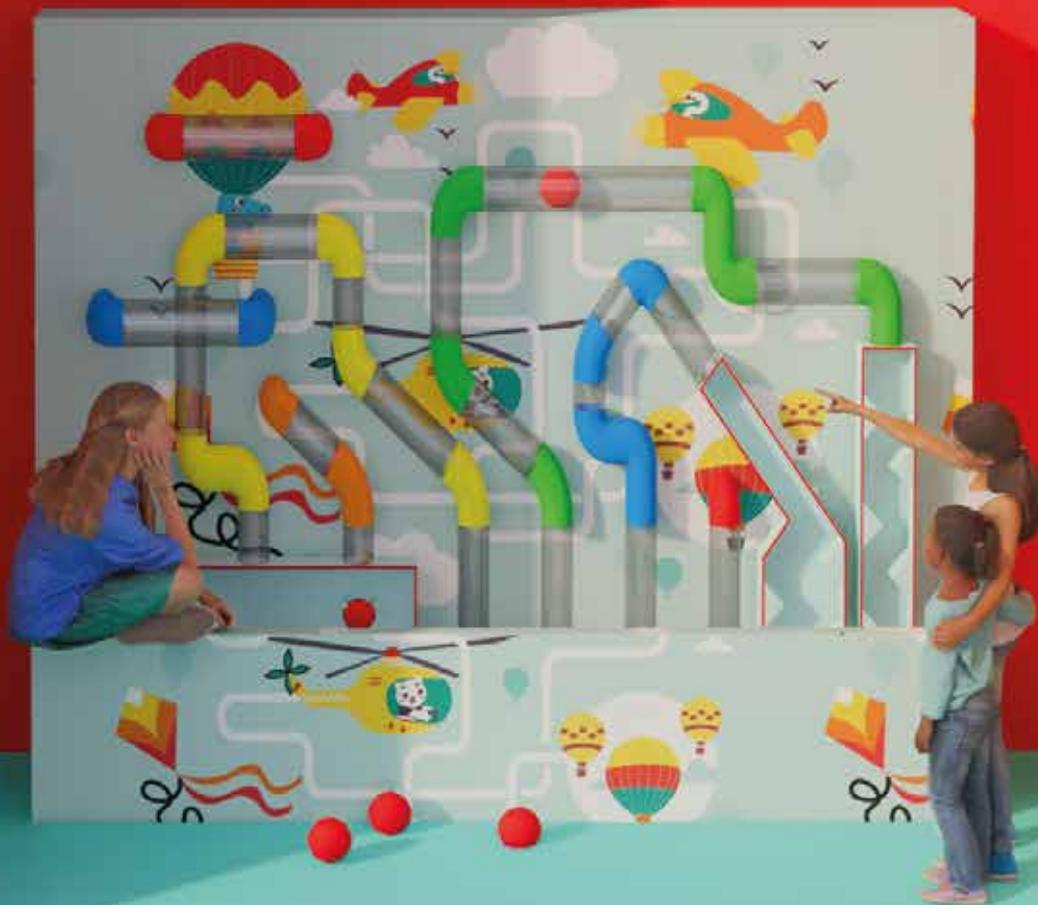

A 450-gram tarpaulin print and visual wrapping are applied on top. Color and concept are left to the customer's preference.

AIR LABIRENT

CARRY THE BALLS THROUGH
THE PIPES WITH FUN!

Airlabirent is an interactive game that allows children to have fun by launching balls into pipes with airflow. It helps develop focus, hand-eye coordination, and motor skills, making play both enjoyable and educational!

Air Labirent

Airlabirent is a ball pool equipment that **combines balls with fun activities** in the pipes with the help of air flow passing through transparent pipes. After the wooden board is covered with **sponge and visual printing**, it is mounted on the transparent pipe and activities. There are 3 or 4 ball throwing areas in the system. **From here, children drop the balls into the air flow created** by the fans and have fun watching the balls dance in the pipes.

Product Features

ISO 9001 - Kalite Yönetim Sistemi - TSE

Kuruluşta kalite anlayışının gelişimini, karlılığın, verimliliğin ve pazar payının artmasını, etkin bir yönetimi, maliyetin azalmasını, çalışanların tatminini, kuruluş içi iletişimde iyileşmeyi, tüm faaliyetlerde geniş izleme ve kontrolü, iadelerin azalmasını, müşteri şikâyetinin azalması, memnuniyetin artmasını sağlayan, ulusal ve uluslararası düzeyde uygulanan bir yönetim sistemi modeli olduğu için ISO 9001.

At the national and international level, it provides the development of the understanding of quality in the organization, the increase of profitability, productivity and market share, an effective management, reduction of costs, employee satisfaction, improvement in internal communication, wide monitoring and control in all activities, reduction of returns, decrease in customer complaints, increase in satisfaction. ISO 9001 as it is an applied management system model.

ISO 10002 - Müşteri Memnuniyet Yönetimi

ISO 10002: 2014, planlama, tasarım, çalıştırma, bakım ve iyileştirme dahil olmak üzere bir kurum veya kuruluş içindeki ürün veya hizmetlerle ilgili şikâyetlerin işleme sürecine ilişkin rehberlik etmektedir. ISO 10002 müşteri memnuniyet yönetim sistemi, ISO 9001 kalite yönetim sisteminde yer alan prosedürler içerisine eklenerek uygulanmaya müsaittir.

ISO 10002:2014 provides guidance on the process of handling complaints about products or services within an organization or organization, including planning, design, operation, maintenance and improvement. The ISO 10002 customer satisfaction management system is available to be implemented by adding it to the procedures in the ISO 9001 quality management system.

EN 1177 - Oyun Alanlarında Güvenlik Standartları

Avrupa birliği üyesi ülkelerde çocuk oyun park ekipmanları ve bu ekipmanların uygulamasına ilişkin güvenlik ve tedbir yönergelerini düzenleyen iki adet temel standart bulunmaktadır. EN 1176 Oyun Parkı Ekipmanları için ve EN 1177'de oyun ekipmanlarının üzerine kurulduğu zemin içindir. Ülkemizde TSE bu kitapçıkların birebir çevirisini yaparak bu belgelere göre uygulama ve denetim yolunu seçmiştir. Bu sebepten

belgeler Türkiye'de TS EN 1176 olarak anılmaktadır.

In the European Union member countries, there are two basic standards that regulate the safety and precautionary instructions for children's playground equipment and the application of these equipment. EN 1176 is for Playground Equipment and EN 1177 is for the floor on which playground equipment is installed. In our country, TSE has chosen the way of implementation and auditing according to these documents by making one-to-one translations of these booklets. For this reason, the documents are referred to as TS EN 1176 in Turkey.

OHSAS 18001 - İş Sağlığı ve Güvenliği

OHSAS 18001 belgesi, iş sağlığı ve güvenliğini yönetmenize, riski en aza indirmenize, saygınlığınızı korumanıza ve işyerinizi güvende tutmanıza yardımcı olan bir iso belgesidir. OHSAS 18001 sertifikası, uluslararası kabul görmüş yönetim sistemi standardıdır. Esnek ve ölçeklenebilir bir çözümdür, sadece geleneksel olarak inşaat, madencilik veya mühendislik gibi yüksek risklerle ilişkili endüstriler için geçerli değildir.

The OHSAS 18001 certification is an iso certification that helps you manage occupational health and safety, minimize risk, protect your reputation and keep your workplace safe. OHSAS 18001 certification is an internationally accepted management system standard. It is a flexible and scalable solution, not just for industries traditionally associated with high risks such as construction, mining or engineering.

EN 1176 - Oyun Alanlarında Güvenlik Standartları

Avrupa birliği üyesi ülkelerde çocuk oyun park ekipmanları ve bu ekipmanların uygulamasına ilişkin güvenlik ve tedbir yönergeleri düzenleyen iki adet temel standart bulunmaktadır.
